CORPORATE STRUCTURE

Name, Address and Incorporation

Canadian Imperial Bank of Commerce (CIBC) is a diversified financial institution governed by the *Bank Act* (Canada) (Bank Act). CIBC was formed through the amalgamation of The Canadian Bank of Commerce and Imperial Bank of Canada in 1961. The Canadian Bank of Commerce was originally incorporated as Bank of Canada by special act of the legislature of the Province of Canada in 1858. Subsequently, the name was changed to The Canadian Bank of Commerce and it opened for business under that name in 1867. Imperial Bank of Canada was incorporated in 1875 by special act of the Parliament of Canada and commenced operations in that year. The address of the registered and head office of CIBC is Commerce Court, Toronto, Ontario, Canada, M5L 1A2.

Intercorporate Relationships

Information about the intercorporate relationships among CIBC and its principal subsidiaries is provided on page 154 of the 2012 AR.

DESCRIPTION OF THE BUSINESS

The CIBC Organization

CIBC is a leading Canadian-based, global financial institution. CIBC serves its clients through three main Strategic Business Units (SBUs): Retail and Business Banking, Wealth Management and Wholesale Banking.

Retail and Business Banking provides clients across Canada with financial advice, products and services through a strong team of advisors over 1,100 branches as well as ABMs, mobile sales force, telephone banking, online and mobile banking.

Wealth Management provides relationship-based advisory services and an extensive suite of leading investment solutions to meet the needs of institutional, retail and high net worth clients. Our asset management, retail brokerage and private wealth management businesses combine to create an integrated offer delivered through nearly 1,500 advisors across Canada.

Wholesale Banking provides credit, capital markets, investment banking and research products and services to government, institutional, corporate and retail investment clients in Canada and in key markets around the world.

CIBC's three main operating groups are supported by six functional groups: Technology and Operations; Corporate Development; Finance; Treasury; Administration; and Risk Management, which form part of Corporate and Other. Information about CIBC's business lines and functional groups is provided in CIBC's Management Discussion and Analysis (2012 MD&A) for the year ended October 31, 2012 included on pages 7-83 of the 2012 Annual Report.

A more complete description of services provided by Retail and Business Banking, Wealth Management and Wholesale Banking can be found in the 2012 Annual Report on pages 23-32.

Competitive Conditions

CIBC was the fifth largest Canadian chartered bank in terms of market capitalization as of October 31, 2012.

CIBC and our competitors operated in an environment of moderate economic growth in 2012, while benefiting from continued healthy household credit quality. Canadian economic activity was held back by softness abroad that affected both exports and related capital spending, as well as by fiscal restraint, but was lifted by strong gains in home building. Consumer spending decelerated as Canadians grew more cautious about adding to non-mortgage credit, but mortgage demand remained brisk until late in the year. The unemployment rate leveled off, but employment continued to grow at a rate that was supportive for household credit quality. Profit gains and strong corporate balance sheets kept Canadian business bankruptcies in check.

The Wholesale Banking and Wealth Management businesses felt the impact of cooler equity markets as investors awaited the resolution of global uncertainties. Wholesale banking benefited from strong issuance of corporate and government debt.

Finally, while Canadian banks remained relatively well capitalized compared to global peers, significant reforms to the current capital framework have been proposed to

strengthen global capital standards and promote a more resilient banking sector.

Social and Environmental Policies

Additional information about our environmental policies and environmental risks can be found under "Management of Risk – Environmental Risk" on page 68 of our 2012 AR.

Risk Factors

A discussion of risk factors related to CIBC and its business, and the steps taken to manage those risks appears throughout the 2012 MD&A and in particular under the heading "Management of Risks" on pages 42 to 68 of the 2012 AR.

GENERAL DEVELOPMENT OF THE BUSINESS

Three Year History

CIBC's first principle is to be a lower risk bank. As a lower risk bank, CIBC targets value creation for stakeholders by delivering on its strategic imperative of consistent and sustainable earnings over the long term.

For many years, CIBC has reported a scorecard of financial objectives to measure and report on our progress to external stakeholders. These measures are categorized into four key areas of shareholder value:

1. Earnings growth
 - Average annual EPS growth of 5-10%
 - Loan loss ratio of 50-65 bps through the cycle
 - Efficiency ratio at the median of industry peers
2. Return on equity
 - ROE of 20% through the cycle
3. Total shareholder return
 - 40-50% dividend payout ratio to common shareholders
 - Total shareholder return that exceeds the industry average
4. Balance sheet strength
 - Minimum Tier 1 and Total capital ratios of 8.5% and 11.5% respectively
 - Allocate at least 75% of economic capital to retail businesses

CIBC made progress against each of these objectives in 2012.

1. Earnings Growth

In 2012, CIBC reported adjusted diluted EPS¹ of \$8.07, up from \$7.57 in 2011, meeting our 5% to 10% target over the prior year.

Our loan loss ratio is defined as the provision for credit losses on impaired loans to average loans and acceptances, net of allowance for credit losses. Our loan loss ratio was 53 basis points in 2012, up from the 51 basis points we reported in 2011 and within our target range.

Our 2012 adjusted efficiency ratio¹ of 55.8% improved from 56.4% in 2011, supported by revenue growth that exceeded expense growth. Based on the most recent publicly reported

¹ For additional information, see the "Non-GAAP measures" section on page 19 of the 2012 Annual Report

results of our industry peer group, CIBC has maintained its efficiency ratio at the industry median in 2012.

2. Return on Equity

Return on equity (ROE) is another key measure of shareholder value. CIBC's target is to achieve ROE of 20% through the cycle. In 2012, ROE of 22.0% was above this target and comparable to the 22.2% in 2011.

3. Total Shareholder Return

CIBC's 2012 dividend payout ratio was 45.1% compared to 46.3% in 2011. The payout ratio was lower as a result of higher earnings that more than offset the \$0.04 quarterly dividend increase to \$0.94 per share announced starting in the fourth quarter of 2012.

CIBC's rolling 5 year total shareholder return in 2012 was -0.1% compared to 25.2% for the S&P/TSX Composite Banks Index. CIBC's rolling 3 year total shareholder return (TSR) in 2012 was 46.0% versus the Index return of 33.5%.

4. Balance Sheet Strength

CIBC's Tier 1 and Total capital ratios were 13.8% and 17.3% at the end of 2012. These ratios were down from 14.7% and 18.4% respectively at the end of 2011. We have also been focused on positioning ourselves for emerging Basel III capital standards. Our pro forma Basel III Common Equity Tier 1 ratio as at the end of 2012, estimated at 9%, already exceeds the 2019 standard of 7% without the benefit of phasing-in regulatory adjustments to capital.

We have defined a target retail/wholesale business mix, as measured by the allocation of economic capital, that is consistent with the type of earnings and risk profile we desire for CIBC. For the past few years, our target has been to allocate at least 75% of our economic capital to retail. At the end of 2012, the retail allocation was 77% of economic capital², comparable to 2011. Retail for this purpose includes Retail and Business Banking, Wealth Management and International Banking, reported as part of Corporate and Other.

DIVIDENDS

CIBC has a common share dividend policy of maintaining a balance between the distribution of profits to shareholders and the need to retain earnings consistent with capital strength and supporting growth in its businesses. In the context of this overall policy, CIBC has a medium term objective for an adjusted dividend payout ratio of 40-50% of earnings attributable to common shareholders and seeks to create a pattern of stable growth in dividends per common share, as appropriate.

The cash dividends declared and paid per share for each class of CIBC shares and restrictions on the payment of dividends can be found on pages 133 to 136 of the 2012 AR.

CAPITAL STRUCTURE

A description of CIBC's capital structure is provided on pages 133 to 137 of the 2012 AR.

² For additional information, see the "Non-GAAP measures" section on page 19 of the 2012 Annual Report

Liquidity and Credit Ratings

We obtain funding through both wholesale and retail sources. Consistent with our liquidity risk mitigation strategies, we continue to source term funding in the wholesale markets from a variety of clients and geographic locations, borrowing across a range of maturities, using a mix of funding instruments. Credit ratings are important to CIBC's ability to raise funds in the wholesale debt markets at competitive prices. A downgrading of CIBC's credit ratings could result in higher funding costs and reduce access to wholesale debt markets. CIBC's wholesale funding and credit ratings are also discussed beginning on page 62 of the 2012 MD&A under the heading "Management of Risk – Liquidity Risk".

The table below provides the ratings for CIBC's Class A Preferred shares and debt obligations as at December 5, 2012:

	DBRS	MOODY'S	STANDARD & POOR'S	FITCH
PREFERRED SHARES	Pfd-1 (low) ³	Baa1 ⁴	P-2(High) P-2 ⁵	BBB
LONG-TERM SENIOR DEBT	AA	Aa2 ⁴	A+	AA-
SUBORDINATED DEBT	AA (low)	Aa3 ⁴	A-	A+
SHORT-TERM DEBT	R-1 (high)	P-1	A-1	F1+

The ratings should not be construed as a recommendation to buy, sell, or hold CIBC securities. Ratings may be revised or withdrawn at any time by the respective rating agencies.

Definitions of rating categories are available on the respective rating agencies' websites and are outlined in Appendix A (as at October 31, 2012). More detailed explanations of the various rating categories may be obtained directly from the rating agencies.

As is common practice, CIBC has paid fees charged by all four of the above-noted rating agencies for their rating services and, to certain of the rating agencies, for other services during the last two years. CIBC reasonably expects that such payments will continue to be made for services in the future.

PRE-APPROVAL POLICIES AND PROCEDURES

The Audit Committee has adopted the CIBC Policy on the Scope of Services of the Shareholders' Auditors (the "Scope of Services Policy") to provide a consistent approach for the engagement of the shareholders' auditors. The Scope of Services Policy

requires that work performed by the shareholders' auditors for CIBC or its subsidiaries be pre-approved by the Audit Committee, along with the related fee for that work. The Audit Committee may establish pre-approval policies and procedures that are specific to a particular service. Under the Scope of Services Policy, the shareholders' auditors will only perform audit, audit-related and tax work, and other work if pre-approved by the Audit Committee. The Audit Committee may approve exceptions to the Scope of Services Policy if it determines that such an exception is in the overriding best interests of CIBC, and the exception does not impair the independence of the shareholders' auditors. However, certain non-audit activities set out in the Scope of Services Policy are generally prohibited and will not be considered for exception from the Policy. On a quarterly basis, the Audit Committee is presented with a summary report of all engagements of the shareholders' auditors that are currently underway or have been completed since the prior quarter's report, including engagements entered into pursuant to pre-approved quarterly limits. The summary report will describe the nature of each engagement, confirm that each engagement is in compliance with the Scope of Services Policy and state the fees received by the shareholders' auditors for each engagement. The Scope of Services Policy also sets out ongoing relationship standards and requires that the shareholders' auditors annually certify compliance with the Policy.

Appendix A **Rating Definitions**

Dominion Bond Rating Service (DBRS)

Short-Term Debt Rating: R-1 (high)
Short-term debt ratings deal with the risk that an issuer will not be able to meet its short-term financial obligations in a timely manner. Short-term debt rated R-1 (high) is of the highest credit quality, indicative of an entity with an exceptionally high capacity to repay its short term financial obligations. R-1 is the highest of six short-term debt rating categories. The R-1 and R-2 categories are further denoted with “high”, “middle” and “low” subcategories.

Long-Term Senior Debt Rating: AA
Subordinated Debt Rating: AA (low)
Long-term debt ratings provide an assessment of the risk that an issuer will not be able to meet its financial obligations under its long-term debt obligations. Long-term debt rated AA is ranked in the second highest of ten categories. It is considered to be of superior credit quality, with capacity for payment considered to be high. The credit quality of obligations rated AA differs from the highest AAA category only to a small degree, and the rating is unlikely to be significantly susceptible to future events. The AA category is further denoted by the subcategories “high” and “low”. The absence of a “high” or “low” indicates a rating in the middle of the category.

Preferred Shares Rating: Pfd-1(low)
Preferred share ratings provide an assessment of the risk that an issuer will not be able to meet its dividend and principal obligations in a timely manner. Preferred shares rated Pfd-1 are of superior credit quality, being supported by entities with strong earnings and balance sheet attributes. A Pfd-1 rating is the highest of six categories for preferred shares. Each category is further denoted by the subcategories “high” and “low”. The absence of a “high” or “low” indicates a rating in the middle of the category.

Moody’s

Short-Term Debt Rating: P-1
Short-term debt ratings are assessments of an issuer’s ability to repay obligations with an original maturity of 13 months or less. Moody’s has four categories of short-term ratings with the P-1 category being the highest credit quality. Borrowers rated P-1 have a superior ability to repay short-term debt obligations.

Long-term Senior Debt Rating: Aa2
Subordinated Debt Rating: Aa3
Long-term debt ratings assess both the likelihood of default of contractual payments and the expected loss in the event of default on obligations with an original maturity of 1 year or more. The Aa rating category is the second highest of nine categories and includes obligations judged to be of high quality and very low credit risk.

Preferred Shares Rating: Baa1
A Baa rating is the fourth highest of nine categories used by Moody’s. Preferred shares carrying this rating are considered to be subject to moderate credit risk and to be medium grade obligations that may have certain speculative attributes.

(The modifiers 1, 2 and 3 are used with certain ratings categories to indicate that an obligation ranks in the higher, middle or lower range of the rating category respectively.)

Standard & Poor's (S&P)

Short-Term Debt Rating: A-1
The A-1 category is the highest of six categories used by S&P for short-term debt. An obligation rated A-1 indicates that the borrower's capacity to meet its financial commitment with respect to the obligation is strong.

Long-Term Senior Debt Rating: A+
Subordinated Debt Rating: A-
The A rating category is the third highest of ten categories used by S&P for long-term debt obligations. Although the obligor's ability to meet its financial commitment is strong, obligations rated A are somewhat more vulnerable to the negative effects of changes in circumstances and economic conditions when compared to obligations in higher rating categories. A "+" or "-" may be used to denote the relative standing of a rating within the category.

Preferred Shares (Canadian Preferred Share Scale) Rating: P-2(High)/P-2
P-2 is the second highest of the eight categories used by S&P in its Canadian Preferred Share Scale, which is used to rate an issuer's creditworthiness with respect to a specific preferred share obligation issued in Canada. A "High" or "Low" modifier may be used to indicate the relative standing of a credit within a particular rating category, while the absence of such a modifier indicates a rating in the middle of the category.

Fitch

Short-Term Debt Rating: F1+
The F1 category is for obligations of the highest short-term credit quality and indicates the strongest intrinsic capacity for timely payment of financial commitments. The F1 rating is the highest of seven categories used for short-term debt.

Long-Term Senior Debt Rating: AA-
AA is the second highest of nine ratings categories for long-term obligations and indicates an assessment of very high credit quality and very low default risk. This rating indicates a very strong capacity for payment of financial commitments that is not significantly susceptible to foreseeable events.

Subordinated Debt Rating: A+
The A category is the third highest of the nine rating categories for long-term obligations and indicates an assessment of high credit quality and low default risk. The capacity for payment is considered strong, but may be more susceptible to adverse business or economic conditions than that of higher rating categories.

Preferred Shares Rating: BBB
BBB is the fourth highest category for preferred share obligations and indicates an assessment of good credit quality and low default risk. The capacity for payment is considered adequate, but is more likely to be impacted by adverse business or economic conditions than that of higher rating categories.

(The designation "+" or "-" may be used to denote relative position within certain major rating categories, while the absence of such a modifier indicates a rating in the middle of the category.)
