

Annual Management Report of Fund Performance

for the financial year ended December 31, 2023

All figures are reported in Canadian dollars unless otherwise noted.

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling toll-free at [1 800 465-3863](tel:18004653863), by emailing us at info@cibcassetmanagement.com, by writing to us at CIBC Square, 81 Bay Street, 20th floor, Toronto, Ontario, M5J 0E7, or by visiting our website at www.cibc.com/mutualfunds or SEDAR+ at www.sedarplus.ca.

Unitholders may also contact us using one of these methods to request a copy of the investment fund's interim financial report, proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Management Discussion of Fund Performance

Investment Objective and Strategies

Investment Objective: CIBC Sustainable Balanced Growth Solution (referred to as the *Fund*) seeks to achieve a combination of long-term capital growth and some income by investing primarily in Canadian, U.S. and international equities and fixed income securities, either directly or indirectly through investment in other mutual funds and exchange-traded funds (referred to as the *Underlying Funds*) and to follow a socially responsible approach to investing.

Investment Strategies: The Fund invests intends to invest up to 100% of its NAV in units of its Underlying Funds managed by us or our affiliates, allocated to a target asset mix weight that will generally provide exposure to 75% equity securities and 25% fixed income securities. The asset allocation will generally be maintained within ranges of no more than 15% above or below the target weighting of each asset class.

Risk

The Fund is a global equity balanced fund that is suitable for medium to long term investors who can tolerate low to medium investment risk.

For the period ended December 31, 2023, the Fund's overall level of risk remained as discussed in the simplified prospectus.

Results of Operations

The Fund's portfolio advisor is CIBC Asset Management Inc. (referred to as CAMI or the Portfolio Advisor). The commentary that follows provides a summary of the results of operations for the period ended December 31, 2023. All dollar figures are expressed in thousands, unless otherwise indicated.

The Fund's net asset value increased by 54% during the period, from \$8,596 as at December 31, 2022 to \$13,211 as at December 31, 2023. Net sales of \$3,730 and positive investment performance resulted in an overall increase in net asset value.

Series A units of the Fund posted a return of 8.3% for the period. The Fund's benchmarks, the FTSE Canada Universe Bond Index and the MSCI World Index (referred to as the *benchmarks*), returned 6.7% and 21.1%, respectively, for the same period. The Fund's return is after the deduction of fees and expenses, unlike the benchmarks' returns. See

the section *Past Performance* for the returns of other series of units offered by the Fund.

During 2023, the Fund adhered to its ESG strategy of divestment through negative screening from the industries outlined in the prospectus through a process of evaluating the revenue exposure of issuers to the disclosed business involvement criteria. During the period, there were no changes made to the portfolio as a result of the ESG characteristics or screening criteria.

The Fund has target allocations of 57.5% global equities, 25% Canadian fixed income securities and 17.5% Canadian equities.

Global equity markets rebounded strongly in 2023, led by the information technology sector. The sector's strong performance was fueled in part by rapid advancements in artificial intelligence. This shifted momentum away from dividend-paying stocks and toward growth-oriented stocks.

From a regional standpoint, equities in nearly all developed markets advanced, led by the U.S., Europe and Japan. The rebound was a result of an easing of inflationary pressures. Inflation in the U.S. declined from 6.5% at the beginning of the period, to about 3.0% at the end of the year. This led central banks around the world to pause on further interest rate increases.

A strong labour market and resilient consumer spending helped the U.S. and other global economies avoid a recession, which once seemed inevitable. The U.S. unemployment rate remained below 4% throughout the year, touching a low of 3.4% in April.

During the period, both the U.S. Federal Reserve Board (referred to as the *Fed*) and the Bank of Canada (referred to as *BoC*) continued to increase policy rates to support efforts to bring inflation back to their target level of 2%. The BoC increased its policy rate by 0.75% to 5.0%, while the Fed raised its rate by 1.0% to 5.25%–5.50%. Early in 2023, the BoC had paused to assess the impact of previously implemented interest rate increases. However, as growth reaccelerated in the second quarter of 2023, the pause was lifted. It was later reinstated as economic growth contracted and inflation continued to cool.

Despite facing significant volatility, longer-term bond yields ended 2023 modestly lower than where they started. Investors had gained confidence that both the Fed and the BoC would likely start cutting policy rates in 2024.

The Canadian yield curve (defined as the difference in two- and 30-year bond yields) continued to invert as short-term interest rates rose while 30-year bond yields declined. Demand for Canadian long-term bonds remained strong, partly owing to a lack of supply. Canadian bonds outperformed U.S. bonds given Canada's weaker economy relative to the U.S. Still, inflation continued to cool in both countries as supply chains normalized post-pandemic.

In March, financial markets experienced a significant shock when concerns about potential insolvency across U.S. regional banks led customers to make massive withdrawals, ultimately resulting in the second- and third-largest bank failures in U.S. history. Despite this volatility, Canadian equities rose in 2023 driven by strong performance in the information technology, consumer discretionary and consumer staples sectors.

In contrast, the Canadian energy and materials sectors had weak performance. On the commodities front, the price of gold rose approximately 14% over the year relative to the price of crude oil (West Texas Intermediate), which declined approximately 10%. Both gold and oil prices reflected continued global macroeconomic uncertainty.

CIBC Sustainable Global Equity Fund was the most significant contributor to the Fund's performance, followed by CIBC Sustainable Canadian Core Plus Bond Fund and CIBC Sustainable Canadian Equity Fund.

Recent Developments

Effective April 27, 2023, Bryan Houston was appointed Chair of the Independent Review Committee.

The COVID-19 pandemic and the Russia-Ukraine war have disrupted the global economy and financial markets in unprecedented and unpredictable ways. This has resulted in significant volatility and uncertainty in financial markets. It is unclear what further actions may be taken by governments and the resulting impact on global economies, businesses and financial markets. Inflation has increased in many markets across the globe, leading central banks to raise interest rates in order to counter rapidly rising prices. These factors may adversely affect the performance of the Fund. The Manager continues to monitor ongoing developments and the impact to investment strategies.

Related Party Transactions

Canadian Imperial Bank of Commerce (referred to as *CIBC*) and its affiliates have the following roles and responsibilities with respect to the Fund, and receive the fees described below in connection with their roles and responsibilities.

Manager

CIBC is the Fund's manager (referred to as the *Manager*). CIBC receives management fees with respect to the Fund's day-to-day business and operations, calculated based on the net asset value of each respective class of units of the Fund as described in the section entitled *Management Fees*. The Manager compensates its wholesalers

in connection with their marketing activities regarding the Fund. From time to time, CIBC may invest in units of the Fund.

The Manager pays the Fund's operating expenses (other than certain fund costs) in respect of the series of units of the Fund (except series O unit), which may include but are not limited to, operating and administrative costs; regulatory fees; audit, and legal fees and expenses; trustee, safekeeping, custodial, and any agency fees; and investor servicing costs and costs of unitholder reports, prospectuses, Fund Facts, and other reports, in exchange for the Fund paying a fixed rate administration fee (plus applicable GST/HST) to the Manager with respect to those series of units. For series O units, no fixed administration fee will be charged. The Manager pays the Fund's operating expenses (other than certain Fund costs) allocated to Class O units of the Fund. The fixed administration fee payable by the Fund, may, in any particular period, exceed or be lower than the expenses we incur in providing such services to the Fund.

Trustee

CIBC Trust Corporation, a wholly-owned subsidiary of CIBC, is the Fund's trustee (referred to as the *Trustee*). The Trustee holds title to the Fund's property (cash and securities) on behalf of its unitholders.

Portfolio Advisor

The portfolio advisor provides, or arranges to provide, investment advice and portfolio management services to the Fund. CAMI, a wholly-owned subsidiary of CIBC, is the Fund's portfolio advisor.

Distributor

Dealers and other firms sell the units of the Fund to investors. These dealers and other firms include CIBC's related dealers such as the principal distributor, CIBC Securities Inc. (referred to as *CIBC SI*), the CIBC Investor's Edge discount brokerage division of CIBC Investor Services Inc. (referred to as *CIBC ISI*), the CIBC Imperial Investor Service division of CIBC ISI, and the CIBC Wood Gundy division of CIBC World Markets Inc. (referred to as *CIBC WM*). CIBC SI, CIBC ISI, and CIBC WM are wholly-owned subsidiaries of CIBC.

CIBC may pay trailing commissions to these dealers and firms, in connection with the sale of units of the Fund. These dealers and other firms may pay a portion of these trailing commissions to their advisors who sell units of the Fund to investors.

Brokerage Arrangements, Designated Broker Arrangement and Soft Dollars

The Portfolio Advisor makes decisions, including the selection of markets and dealers and the negotiation of commissions, with respect to the purchase and sale of portfolio securities, certain derivative products and the execution of portfolio transactions. Brokerage business may be allocated by the Portfolio Advisor to CIBC WM and CIBC World Markets Corp., each a subsidiary of CIBC. CIBC WM and CIBC World Markets Corp. may also earn spreads on the sale of fixed income securities and other securities and certain derivative products to the Fund. A spread is the difference between the bid and ask prices for a security in the applicable marketplace, with respect to the execution of portfolio transactions. The spread will differ based upon various factors such as the type and liquidity of the security.

CIBC has entered into an agreement with CIBC WM to act as designated broker to perform certain duties for the Fund. The designated broker arrangements entered into with CIBC WM are consistent with market terms and conditions.

Dealers, including CIBC WM and CIBC World Markets Corp., may furnish goods and services, other than order execution, to the Portfolio Advisor in partial exchange for processing trades through them (referred to in the industry as “soft dollar” arrangements). These goods and services are paid for with a portion of the brokerage commissions and assist the Portfolio Advisor with investment decision-making services for the Fund or relate directly to the execution of portfolio transactions on behalf of the Fund.

During the period, the Fund did not pay any brokerage commissions or other fees to CIBC WM or CIBC World Markets Corp. Spreads associated with fixed income and other securities are not ascertainable and, for that reason, cannot be included when determining these amounts.

Fund Transactions

The Fund may enter into one or more of the following transactions (referred to as the *Related Party Transactions*) in reliance on the standing instructions issued by the IRC:

- invest in or hold equity securities of CIBC or issuers related to a portfolio sub-advisor;
- invest in or hold non-exchange-traded debt securities of CIBC or an issuer related to CIBC, with terms-to-maturity of 365 days or more, issued in a primary offering and in the secondary market;
- make an investment in the securities of an issuer for which CIBC WM, CIBC World Markets Corp., or any affiliate of CIBC (referred to as a *Related Dealer* or the *Related Dealers*) acts as an underwriter during the offering of the securities or at any time during the 60-day period following the completion of the offering of such securities (in the case of a “private placement” offering, in accordance with the exemptive relief order granted by the Canadian securities regulatory authorities and in accordance with the policies and procedures relating to such investment);
- purchase equity or debt securities from or sell them to a Related Dealer, where it is acting as principal;
- undertake currency and currency derivative transactions where a Related Dealer is the counterparty;
- purchase securities from or sell securities to another investment fund or a managed account managed by the Manager or an affiliate; and
- engage in in-specie transfers by receiving portfolio securities from, or delivering portfolio securities to, a managed account or another investment fund managed by the Manager or an affiliate, in respect of a purchase or redemption of units in the fund, subject to certain conditions.

At least annually, the IRC reviews the Related Party Transactions for which they have issued standing instructions. The IRC is required to advise the Canadian securities regulatory authorities, after a matter has been referred or reported to the IRC by the Manager, if it determines that an investment decision was not made in accordance with a

condition imposed by securities legislation or the IRC in any Related Party Transactions requiring its approval.

Custodian

CIBC Mellon Trust Company is the Fund's custodian (referred to as the *Custodian*). The Custodian holds all cash and securities for the Fund and ensures that those assets are kept separate from any other cash or securities that the Custodian might be holding. The Custodian also provides other services to the Fund including record-keeping and processing of foreign exchange transactions. The Custodian may hire sub-custodians for the Portfolio. The fees and spreads for services of the Custodian directly related to the execution of portfolio transactions by the Fund are paid by CAMI and/or the dealer(s) directed by CAMI, up to the amount of the credits generated under soft dollar arrangements from trading on behalf of the Fund during that month. All other fees and spreads for the services of the Custodian are paid by the Manager and charged to the Fund on a recoverable basis. CIBC owns a 50% interest in the Custodian.

Service Provider

CIBC Mellon Global Securities Services Company Inc. (referred to as *CIBC GSS*) provides certain services to the Fund, including securities lending, fund accounting and reporting, and portfolio valuation. Such servicing fees are paid by the Manager and charged to the Fund on a recoverable basis. CIBC indirectly owns a 50% interest in CIBC GSS.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the period ended December 31.

^a Information presented is for the period from the inception date to December 31.

^b Initial offering price.

* Ratio has been annualized.

¹ This information is derived from the Fund's audited annual financial statements.

² Net assets and distributions are based on the actual number of units outstanding at the relevant time. The total increase (decrease) from operations is based on the weighted average number of units outstanding during the period.

³ Distributions were paid in cash, reinvested in additional units of the Fund, or both.

⁴ This information is presented as at December 31 of the period(s) shown.

⁵ Management expense ratio is based on the total expenses of the Fund (excluding commissions and other portfolio transaction costs), incurred by or allocated to a series of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that series during the period. The management expense ratio includes the fees attributable to exchange traded funds, where applicable.

⁶ The decision to waive management fees is at the discretion of the Manager. The practice of waiving management fees may continue indefinitely or may be terminated at any time without notice to unitholders. The management expense ratio before waivers or absorptions includes the fees attributable to exchange traded funds, where applicable.

⁷ The trading expense ratio represents total commissions and other portfolio transaction costs before income taxes expressed as an annualized percentage of the daily average net asset value during the period. Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation.

⁸ The portfolio turnover rate indicates how actively the portfolio advisor and/or portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Fund.

Management Fees

The Fund, either directly or indirectly, pays CIBC an annual management fee to cover the costs of managing the Fund. Management fees are based on the Fund's net asset value and are calculated daily and paid monthly. Management fees are paid to CIBC in consideration for providing, or arranging for the provision of, management, distribution, and portfolio advisory services. Advertising and promotional expenses, office overhead expenses and trailing commissions are paid by CIBC out of the management fees received from the Fund. The Fund is required to pay applicable taxes on the management fees paid to CIBC. Refer to the Simplified Prospectus for the annual management fee rate for each series of units. For Series O units, the management fee is negotiated with and paid by, or as directed by, unitholders or dealers and discretionary managers on behalf of unitholders. Such Series O management fee will not exceed the Series F unit management fee rate.

The following table shows a breakdown of the services received in consideration of the management fees, as a percentage of the management fees collected from the Fund for the period ended December 31, 2023. These amounts do not include waived fees or absorbed expenses.

	Series A Units	Series F Units	ETF Series Units	Series S Units
Sales and trailing commissions paid to dealers	22.90%	0.00%	0.00%	0.00%
General administration, investment advice, and profit	77.10%	100.00%	100.00%	100.00%

Past Performance

The performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution, or other optional charges payable by any unitholder that would have reduced returns. Past performance does not necessarily indicate how a fund will perform in the future.

The Fund's returns are after the deduction of fees and expenses, and the difference in returns between series of units is primarily due to differences in the management expense ratio. See the *Financial Highlights* section for the management expense ratio.

Year-by-Year Returns

These bar charts show the annual performance of each series of units of the Fund for each of the periods shown, and illustrate how the performance has changed from period to period. These bar charts show, in percentage terms, how an investment made on January 1 would have increased or decreased by December 31, unless otherwise indicated.

† 2021 return is for the period from July 5, 2021 to December 31, 2021.

† 2021 return is for the period from July 5, 2021 to December 31, 2021.

† 2021 return is for the period from July 19, 2021 to December 31, 2021.

† 2021 return is for the period from July 5, 2021 to December 31, 2021.

† 2021 return is for the period from July 5, 2021 to December 31, 2021.

Annual Compound Returns

This table shows the annual compound return of each series of units of the Fund for each indicated period ended on December 31, 2023. The annual compound total return is also compared to the Fund's benchmark(s).

The Fund's benchmarks are the FTSE Canada Universe Bond Index and the MSCI World Index.

	1 Year (%)	3 Years (%)	5 Years (%)	10 Years* (%)	or Since Inception* (%)	Inception Date
Series A units	8.3				(1.2)	July 5, 2021
FTSE Canada Universe Bond Index	6.7				(2.0)	
MSCI World Index	21.1				6.6	
Series F units	9.6				0.2	July 5, 2021
FTSE Canada Universe Bond Index	6.7				(2.0)	
MSCI World Index	21.1				6.6	
ETF Series	9.6				(0.2)	July 19, 2021

MSCI World Index	21.1				6.2	
Series S units	10.9				0.7	July 5, 2021
FTSE Canada Universe Bond Index	6.7				(2.0)	
MSCI World Index	21.1				6.6	
Series O units	11.0				1.2	July 5, 2021
FTSE Canada Universe Bond Index	6.7				(2.0)	
MSCI World Index	21.1				6.6	

* If a series of units has been outstanding for less than 10 years, the annual compound return since inception is shown.

FTSE Canada Universe Bond Index is comprised of marketable Canadian bonds intended to reflect the performance of the broad Canadian investment-grade bond market. Returns are calculated daily and are weighted by market capitalization.

MSCI World Index is a free float-adjusted market capitalization index composed of companies representative of the market structure of developed market countries in North America, Europe and the Asia/Pacific region.

A discussion of the Fund's relative performance compared to its benchmark(s) can be found in *Results of Operations*.

Summary of Investment Portfolio (as at December 31, 2023)

The Fund invests in units of its Underlying Funds. You can find the prospectus and additional information about the Underlying Funds by visiting www.sedarplus.ca.

The summary of investment portfolio may change due to ongoing portfolio transactions of the investment fund. A quarterly update is available by visiting www.cibc.com/mutualfunds. The Top Positions table shows the Fund's 25 largest positions. If the fund holds fewer than 25 positions in total, all positions are shown.

Other Assets, less Liabilities	(0.4)	Other Assets, less Liabilities	(0.4)

A note on forward-looking statements

The management report of fund performance may contain forward-looking statements. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", or other similar wording. In addition, any statements that may be made concerning future performance, strategies, or prospects and possible future actions taken by the fund, are also forward-looking statements. Forward-looking statements are not guarantees of future performance. These statements involve known and unknown risks, uncertainties, and other factors that may cause the actual results and achievements of the fund to differ materially from those expressed or implied by such statements. Such factors include, but are not limited to: general economic, market, and business conditions; fluctuations in securities prices, interest rates, and foreign currency exchange rates; changes in government regulations; and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. CIBC does not undertake, and specifically disclaims, any obligation to update or revise any forward-looking statements, whether as a result of new information, future developments, or otherwise prior to the release of the next management report of fund performance.
