

Annual Management Report of Fund Performance

for the financial year ended December 31, 2023

All figures are reported in U.S. dollars unless otherwise noted.

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling toll-free at <u>1 800 465-3863</u>, by emailing us at <u>info@cibcassetmanagement.com</u>, by writing to us at CIBC Square, 81 Bay Street, 20th floor, Toronto, Ontario, M5J 0E7, or by visiting our website at www.cibc.com/mutualfunds or SEDAR+ at www.sedarplus.ca.

Unitholders may also contact us using one of these methods to request a copy of the investment fund's interim financial report, proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Management Discussion of Fund Performance

Investment Objective and Strategies

Investment Objective: CIBC U.S. Dollar Managed Income Portfolio (referred to as the *Portfolio*) seeks to create a diversified portfolio by allocating its investments across a balanced blend of asset classes. Within the asset classes, the Portfolio will invest primarily in Mutual Funds including savings, income, and growth funds (referred to as the *Underlying Funds*). The Portfolio will focus primarily on generating a high level of regular income with a secondary focus on modest capital growth. The Portfolio will attempt to reduce its currency exposure to non-U.S. dollar currencies by implementing a currency hedging strategy that is aimed at protecting the Portfolio from non-U.S. dollar currency fluctuations in respect of units it owns in the Underlying Funds.

Investment Strategies: The Portfolio employs a long-term strategic asset mix weighting among the Underlying Funds of 75% fixed income securities and 25% equity securities. The asset allocation will generally be maintained within ranges of no more than 15% above or below the target weighting of each asset class based on changes in the market outlook and the Underlying Funds' ability to help meet the Portfolio's stated investment objectives.

Risk

The Portfolio is a Canadian fixed income balanced fund that is suitable for short to medium term investors who can tolerate low investment risk.

For the period ended December 31, 2023, the Portfolio's overall level of risk remained as discussed in the simplified prospectus.

Results of Operations

The Portfolio's portfolio advisor is CIBC Asset Management Inc. (referred to as *CAMI* or the *Portfolio Advisor*). The commentary that follows provides a summary of the results of operations for the period ended December 31, 2023. All dollar figures are expressed in thousands, unless otherwise indicated.

The Portfolio's net asset value decreased by 10% during the period, from \$176,451 as at December 31, 2022 to \$159,601 as at December 31, 2023. Net redemptions of \$30,345 were partially offset by positive investment performance, resulting in an overall decrease in net asset value.

Class A units of the Portfolio posted a return of 8.6% for the period. The Portfolio's primary benchmark, the FTSE Canada Universe Bond Index (referred to as the *primary benchmark*), returned 6.7% for the same period. The Portfolio's blended benchmark, as described in the *Annual Compound Returns* section under *Past Performance*, returned 9.9% for the same period. The blended benchmark closely reflects the asset classes the Portfolio invests in, and provides a more useful comparative to the Portfolio's performance. The Portfolio's return is after the deduction of fees and expenses, unlike the primary and blended benchmarks' returns. See the section *Past Performance* for the returns of other classes of units offered by the Portfolio.

The Portfolio has target allocations of 47.5% Canadian fixed income securities, 27.5% global fixed income securities, 8% Canadian equities, 8% U.S. equities, 7% international equities and 2% emerging markets equities.

During the period, both the U.S. Federal Reserve Board (referred to as the Fed) and the Bank of Canada (referred to as BoC) continued to raise policy rates to support efforts to bring inflation back to their target level of 2%. The BoC increased its policy rate by 0.75% to 5.0%, while the Fed raised its rate by 1.0% to 5.25%–5.50%. Early in 2023, the BoC had paused to assess the impact of previously implemented interest rate increases. However, as growth reaccelerated in the second quarter of 2023, the pause was lifted. It was later reinstated as economic growth contracted and inflation continued to cool.

Despite facing significant volatility, longer-term bond yields ended 2023 modestly lower than where they started. Investors had gained confidence that both the Fed and the BoC would likely start lowering policy rates in 2024.

The Canadian yield curve (defined as the difference in two- and 30-year bond yields) continued to invert as short-term interest rates rose while 30-year bond yields declined. Demand for Canadian long-term bonds remained strong, partly owing to a lack of supply. Canadian bonds outperformed U.S. bonds given Canada's weaker economy relative to the U.S. Still, inflation continued to moderate in both countries as supply chains normalized post-pandemic.

Inflationary pressure coming from tight labour markets continued during the period. Most major central banks continued with tightening monetary policy, raising interest rates throughout the year. However, late in 2023, the Fed shifted its stance, signalling that it may lower interest rates earlier than expected in 2024.

Canadian equities rose in 2023, driven by strong performance in the information technology, consumer discretionary and consumer staples sectors. In contrast, the Canadian energy and materials sectors had weak performance. On the commodities front, the price of gold rose approximately 14% over the year relative to the price of crude oil (West Texas Intermediate), which declined approximately 10%. Both gold and oil prices reflected continued global macroeconomic uncertainty.

In the U.S., consumer spending remained robust, buoyed by a strong labour market and pandemic-related savings. Excitement around artificial intelligence further extended the outperformance of the "Magnificent Seven" stocks in the information technology sector.

International equity markets enjoyed positive performance, despite continued uncertainty over global growth and continued monetary tightening. Market participants began to expect an easing of monetary policy in view of slower inflation and hopes of a "soft landing" for global economies.

Although Europe was on the edge of recession, most major economies held up better than expected. Consumer spending showed resilience, particularly in the U.S., despite the corrosive effect of inflation and high interest rates on personal incomes.

China's reopening of its economy from COVID-19 lockdowns in early 2023 was expected to give a boost to the rest of the world. As China's performance was lacklustre, many market participants forecasted a global recession, but it failed to materialize. A global economic soft landing became progressively more probable by late in the year.

Inflation in emerging markets countries peaked and many emerging markets central banks began to reduce interest rates. There was a decline in inflation, with Europe and Latin America contributing to yields pushing lower.

CIBC Canadian Bond Fund was the most significant contributor to the Portfolio's performance, followed by Renaissance U.S. Dollar Corporate Bond Fund (USD) and CIBC International Equity Fund.

Recent Developments

Effective April 27, 2023, Bryan Houston was appointed Chair of the Independent Review Committee.

The COVID-19 pandemic and the Russia-Ukraine war have disrupted the global economy and financial markets in unprecedented and unpredictable ways. This has resulted in significant volatility and uncertainty in financial markets. It is unclear what further actions may be taken by governments and the resulting impact on global economies, businesses and financial markets. Inflation has increased in many markets across the globe, leading central banks to raise interest rates in order to counter rapidly rising prices. These factors may adversely affect the performance of the Portfolio. The Manager continues to monitor ongoing developments and the impact to investment strategies.

Related Party Transactions

CIBC and its affiliates have the following roles and responsibilities with respect to the Portfolio, and receive the fees described below in connection with their roles and responsibilities.

Manager

CIBC is the Portfolio's manager (referred to as the *Manager*). The Portfolio holds units of other mutual funds (the *Underlying Funds*), which may also be managed by CIBC or its affiliates. CIBC will receive management fees with respect to the Portfolio's day-to-day business and operations, calculated based on the net asset value of each respective class of units of the Portfolio as described in the section entitled *Management Fees*. The Manager compensates its wholesalers in connection with their marketing activities regarding the Portfolio. From time to time, CIBC may invest in units of the Portfolio.

The Manager pays the Portfolio's operating expenses (other than certain fund costs) in respect of the class of units of the Portfolio, which may include but are not limited to, operating and administrative costs; regulatory fees; audit, and legal fees and expenses; trustee, safekeeping, custodial, and any agency fees; and investor servicing costs and costs of unitholder reports, prospectuses, Fund Facts, and other reports, in exchange for the Portfolio paying a fixed rate administration fee (plus applicable GST/HST) to the Manager with respect to those class of units. The fixed administration fee payable by the Portfolio, may, in any particular period, exceed or be lower than the expenses we incur in providing such services to the Fund.

Trustee

CIBC Trust Corporation, a wholly-owned subsidiary of CIBC, is the Portfolio's trustee (referred to as the *Trustee*). The Trustee holds title to the Portfolio's property (cash and securities) on behalf of its unitholders.

Portfolio Advisor

The portfolio advisor provides, or arranges to provide, investment advice and portfolio management services to the Portfolio. CAMI, a whollyowned subsidiary of CIBC, is the Portfolio's portfolio advisor.

Distributor

Dealers and other firms will sell the units of the Portfolio to investors. These dealers and other firms will include CIBC's related dealers such as the principal distributor, CIBC Securities Inc. (referred to as *CIBC SI*), the CIBC Investor's Edge discount brokerage division of CIBC Investor Services Inc. (referred to as *CIBC ISI*), the CIBC Imperial Investor Service division of CIBC ISI, and the CIBC Wood Gundy division of CIBC World Markets Inc. (referred to as *CIBC WM*). CIBC SI, CIBC ISI, and CIBC WM are wholly-owned subsidiaries of CIBC.

CIBC may pay trailing commissions to these dealers and firms, in connection with the sale of units of the Portfolio. These dealers and other firms may pay a portion of these trailing commissions to their advisors who sell units of the Portfolio to investors.

Brokerage Arrangements and Soft Dollars

The Portfolio Advisor purchases and sells units of the Underlying Funds on behalf of the Portfolio and, as a result, the Portfolio does not incur any sales charges or brokerage commissions with respect to execution of portfolio transactions of the Underlying Funds.

Decisions that the Portfolio Advisor may make as to brokerage transactions, including the selection of markets and dealers and the negotiation of commissions, would be based on elements such as price, speed of execution, certainty of execution, and total transaction costs.

CIBC WM and CIBC World Markets Corp. may also earn spreads on the sale of securities to the Portfolio. A spread is the difference between the bid and ask prices for a security in the applicable marketplace, with respect to the execution of portfolio transactions. The spread will differ based upon various factors such as the nature and liquidity of the security.

Dealers, including CIBC WM and CIBC World Markets Corp., may furnish goods and services, other than order execution, to the Portfolio Advisor in partial exchange for processing trades through them (referred to in the industry as "soft dollar" arrangements). These goods and services are paid for with a portion of the brokerage commissions and assist the Portfolio Advisor with investment decision-making services for the Portfolio or relate directly to the execution of trades on behalf of the Portfolio.

During the period, the Portfolio did not pay any brokerage commissions or other fees to CIBC WM or CIBC World Markets Corp. Spreads associated with fixed income and other securities are not ascertainable and, for that reason, cannot be included when determining these amounts.

Custodian

CIBC Mellon Trust Company is the Portfolio's custodian (referred to as the *Custodian*). The Custodian holds all cash and securities for the Portfolio and ensures that those assets are kept separate from any other cash or securities that the Custodian might be holding. The Custodian also provides other services to the Portfolio including record-keeping and processing of foreign exchange transactions. The Custodian may hire sub-custodians for the Portfolio. The fees and spreads for services of the Custodian directly related to the execution of portfolio transactions by the Portfolio are paid by CAMI and/or the dealer(s) directed by CAMI, up to the amount of the credits generated under soft dollar arrangements from trading on behalf of the Portfolio during that month. All other fees and spreads for the services of the Custodian are paid by the Manager and charged to the Portfolio on a recoverable basis. CIBC owns a 50% interest in the Custodian.

Service Provider

CIBC Mellon Global Securities Services Company Inc. (referred to as *CIBC GSS*) provides certain services to the Portfolio, including securities lending, fund accounting and reporting, and portfolio valuation. Such servicing fees are paid by the Manager and charged to the Portfolio on a recoverable basis. CIBC indirectly owns a 50% interest in CIBC GSS.

Financial Highlights

The following tables show selected key financial information about the Portfolio and are intended to help you understand the Portfolio's financial performance for the period ended December 31.

^a Information presented is for the period from the inception date to December 31.

b Initial offering price.

^{*} Ratio has been annualized.

¹ This information is derived from the Portfolio's audited annual financial statements.

Net assets and distributions are based on the actual number of units outstanding at the relevant time. The total increase (decrease) from operations is based on the weighted average number of units outstanding during the period.

Distributions were paid in cash, reinvested in additional units of the Portfolio, or both.

⁴ This information is presented as at December 31 of the period(s) shown.

- Management expense ratio is based on the total expenses of the Portfolio (excluding commissions and other portfolio transaction costs), incurred by or allocated to a class of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that class during the period. The management expense ratio includes the fees attributable to exchange traded funds, where applicable.
- The decision to waive management fees is at the discretion of the Manager. The practice of waiving management fees may continue indefinitely or may be terminated at any time without notice to unitholders. The management expense ratio before waivers or absorptions includes the fees attributable to exchange traded funds, where applicable.
- The trading expense ratio represents total commissions and other portfolio transaction costs before income taxes expressed as an annualized percentage of the daily average net asset value during the period. Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation.
- The portfolio turnover rate indicates how actively the portfolio advisor and/or portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to the Portfolio buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by the Portfolio in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Portfolio.

Management Fees

The Portfolio, either directly or indirectly, pays CIBC an annual management fee to cover the costs of managing the Portfolio. Management fees are based on the Portfolio's net asset value and are calculated daily and paid monthly. Management fees are paid to CIBC in consideration for providing, or arranging for the provision of, management, distribution, and portfolio advisory services. Advertising and promotional expenses, office overhead expenses and trailing commissions are paid by CIBC out of the management fees received from the Portfolio. The Portfolio is required to pay applicable taxes on the management fees paid to CIBC. Refer to the Simplified Prospectus for the annual management fee rate for each class of units.

For the period ended December 31, 2023, 100% of the management fees collected from the Portfolio was attributable to general administration and investment advice.

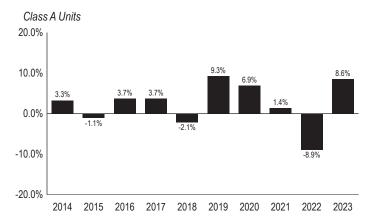

Past Performance

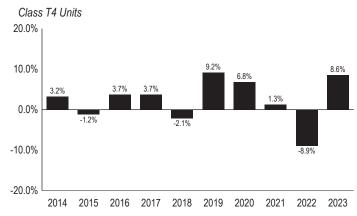

The performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution, or other optional charges payable by any unitholder that would have reduced returns. Past performance does not necessarily indicate how a fund will perform in the future.

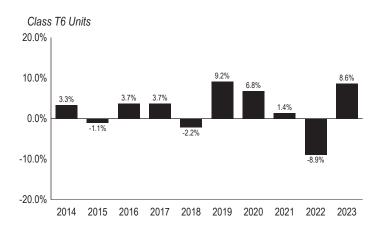

The Portfolio's returns are after the deduction of fees and expenses, and the difference in returns between classes of units is primarily due to differences in the management expense ratio. See the *Financial Highlights* section for the management expense ratio.

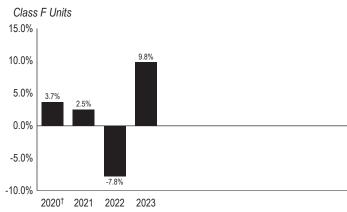

Year-by-Year Returns

These bar charts show the annual performance of each class of units of the Portfolio for each of the periods shown, and illustrate how the performance has changed from period to period. These bar charts show, in percentage terms, how an investment made on January 1 would have increased or decreased by December 31, unless otherwise indicated.

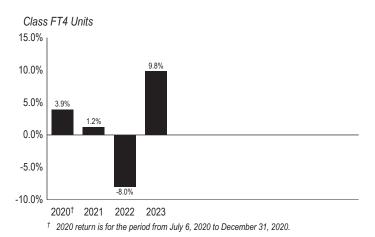

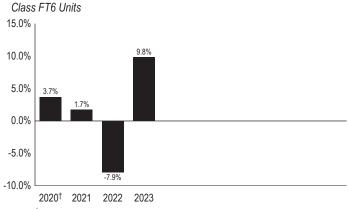

[†] 2020 return is for the period from July 6, 2020 to December 31, 2020.

[†] 2020 return is for the period from July 6, 2020 to December 31, 2020.

Annual Compound Returns

This table shows the annual compound return of each class of units of the Portfolio for each indicated period ended on December 31, 2023. The annual compound total return is also compared to the Portfolio's benchmark(s).

The Portfolio's primary benchmark is the FTSE Canada Universe Bond Index.

The Portfolio's blended benchmark (referred to as Blended Benchmark) is comprised of the following:

- 37.5% FTSE Canada Universe Bond Index
- 20% Bloomberg U.S. Corporate Investment Grade Bond Index (USD)
- 10% FTSE Canada Short Term Overall Bond Index
- 8% S&P/TSX Composite Index
- 7% MSCI EAFE Index (Net) (Hedged to USD)
- 7% S&P 500 Index (USD)
- 3.9% FTSE World Government Bond Index (Hedged to USD)
- 2% MSCI Emerging Markets Index (Net) (Hedged to USD)
- 1.8% Credit Suisse Leveraged Loan Index (USD)
- 1.8% FTSE Canada High Yield Bond Index
- 1% Russell 2500 Index (USD)

If a class of units has been outstanding for less than 10 years, the annual compound return since inception is shown.

Bloomberg U.S. Corporate Investment Grade Bond Index (USD) is a broad-based index that measures the investment grade, U.S. dollar-denominated, fixed-rate, taxable corporate bond market. It includes USD-denominated securities publicly issued by U.S. and non-U.S. industrial, utility, and financial issuers that meet specified maturity, liquidity, and quality requirements.

Credit Suisse Leveraged Loan Index (USD) are indices designed to mirror the investable universe of the U.S. dollar-denominated leveraged loan market.

FTSE Canada High Yield Bond Index is designed to be a broad measure of the Canadian non-investment grade fixed income market, which includes securities rated less than BBB (low) but greater than D. Returns are calculated daily and are weighted by market capitalization.

FTSE Canada Short Term Overall Bond Index is intended to represent the Canadian short-term bond market. It contains bonds with remaining effective terms greater than or equal to one year and less than or equal to 5 years.

FTSE Canada Universe Bond Index is comprised of marketable Canadian bonds intended to reflect the performance of the broad Canadian investment-grade bond market. Returns are calculated daily and are weighted by market capitalization.

FTSE World Government Bond Index (Hedged to USD) measures the performance of fixed-rate, local currency, investment-grade sovereign bonds. It currently includes sovereign debt from over 20 countries, denominated in a variety of currencies, and has more than 30 years of history available. Hedged to USD represents a close estimation of the performance that can be achieved by hedging the currency exposures of the index, FTSE World Government Bond Index, to USD.

MSCI EAFE Index (Net) (Hedged to USD) is a free float-adjusted market capitalization index of stocks of companies of developed market equity indices covering countries in Europe, Australia, and the Far East. Hedged to USD represents a close estimation of the performance that can be achieved by hedging the currency exposures of the index, MSCI EAFE Index (NET), to USD.

MSCI Emerging Markets Index (Net) (Hedged to USD) is a free float-adjusted market capitalization index that is intended to represent the emerging countries equity market. It includes stocks from emerging countries in Asia, Latin America, Europe, Africa, and the Middle East. Hedged to USD represents a close estimation of the performance that can be achieved by hedging the currency exposures of the index, MSCI Emerging Markets Index (Net), to USD.

Russell 2500 Index (USD) is intended to represent the U.S. small- to mid-capitalization equity market. It measures the performance of the 2,500 smallest companies in the Russell 3000 Index.

S&P 500 Index (USD) is a capitalization-weighted index of 500 stocks, designed to measure performance of the broad U.S. economy representing all major industries.

S&P/TSX Composite Index is intended to represent the Canadian equity market and includes the largest companies listed on the TSX.

A discussion of the Portfolio's relative performance compared to its benchmark(s) can be found in Results of Operations.

Summary of Investment Portfolio (as at December 31, 2023)

The Portfolio invests in units of its Underlying Funds. You can find the prospectus and additional information about the Underlying Funds by visiting www.sedarplus.ca.

The summary of investment portfolio may change due to ongoing portfolio transactions of the investment fund. A quarterly update is available by visiting www.cibc.com/mutualfunds. The Top Positions table shows the Portfolio's 25 largest positions. If the fund holds fewer than 25 positions in total, all positions are shown.

A note on forward-looking statements

The management report of fund performance may contain forward-looking statements. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", or other similar wording. In addition, any statements that may be made concerning future performance, strategies, or prospects and possible future actions taken by the fund, are also forward-looking statements. Forward-looking statements are not guarantees of future performance. These statements involve known and unknown risks, uncertainties, and other factors that may cause the actual results and achievements of the fund to differ materially from those expressed or implied by such statements. Such factors include, but are not limited to: general economic, market, and business conditions; fluctuations in securities prices, interest rates, and foreign currency exchange rates; changes in government regulations; and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. CIBC does not undertake, and specifically disclaims, any obligation to update or revise any forward-looking statements, whether as a result of new information, future developments, or otherwise prior to the release of the next management report of fund performance.
